Click on this box to edit the dates (DACs only).		

School level users can view the test windows provided by the District Assessment Coordinator, but they cannot change the information. Only District level users can make changes to these dates. DACs can either type in the first day of the testing window for each level (in MM/DD/YYYY format), or can use the calendar which will pop up when clicking in the date box to select the date.

# Spring Testing Windows

If the district's testing windows change for any reason, SDRR **must** be updated to reflect the correct dates. OAA uses the testing window dates provided by DACs and enrollment information in IC to calculate 100 day accountability for students.

Please note that the first day of the 5- day spring summative testing window must fall in the last 14 days of the school year. That information is pulled from Infinite Campus calendars and the earliest possible testing window start date is shown onscreen (circled below in blue). It is crucial that IC calendars are checked for accuracy early, including preschools/alternative programs that may impact the district calendar. If the earliest possible start dates are incorrect, IC calendars will need to be updated and the changes will be reflected in SDRR the following week.

[Home](#) > District Test Windows

## District Test Windows

This section of SDRR shows the start date of the 5-day spring summative testing window for the elementary, middle, and high schools for your district. This date must be within the last 14 days of the school year, and the last day of school is pulled from Infinite Campus calendars. Only district level users can edit this information, and OAA will use this date to determine correct accountability for students whenever possible.
